

Today May 2nd, 2019 the Community Platform, of which the INOU is a member, launched election manifestos and materials to promote and support the delivery of positive social values in the 2019 Local and European Elections. Three values in particular are highlighted: Community, Decency and Participation.

The Community Platform believes that electing people who will deliver on these values on May 24th will help achieve the type of inclusive society we all want to live in at a local level and as part of a wider European Union.

You can download and read the 3 Manifestos here.
